

## Web Services

Southern Maryland's #1 Web Design Company

### Cost Effective Web Solutions!

**Small Business Website Design** - BalanceLogic provides affordable web design and consulting services. Whether you're starting from scratch or redesigning your existing website, we will give you the solution you are looking for!

Our web services give you value for your money. We build dependable client relationships and provide personal communication. All our websites are designed from a "blank paper," so your site is guaranteed to be unique and created just the way you want it.

#### ECOMMERCE WEBSITES

If you sell products online, we have a solution for you! We can offer you an online store custom built either around your already existing identity or from scratch. Let us help you open up new revenue opportunities by selling online!

#### SEO CHECKUP

Is your website appearing in the search engines? Does it have a high search engine ranking? If you answered "No" or "I Don't Know" to either of these questions then a website tune up offer may be of interest to you.

We will visit and analyze your website. We then investigate your website (and your competitor's websites) to formulate a list of changes and recommendations that will help your website attain better rankings and exposure.

Our web services include:

- Custom website design
- Website redesign
- Database driven websites
- Custom ecommerce solutions
- Content management solutions
- Custom web applications

### Ask About Our Do-It-Yourself Web Editing
