A **very low** percentage of small businesses backup their data. A **high** percentage of small businesses think that a disaster could never happen to them....until it does. Don't wait until disaster strikes; protect your company information now!

**Used, Refurbished, and Pre-Owned Technology Offers Huge Savings.**

Most used and refurbished equipment is sold "as-is", leaving you with all of the liability. BalanceLogic® Technology Outlet provides quality equipment and backs it up with a quality guarantee.

We test every piece of equipment that we have in inventory before it is sold, so you know that you will receive quality working items. All items go through a checklist and must pass our internal tests.

BalanceLogic serves clients large and small nationwide providing refurbished equipment without the risk, because we stand by every item we sell. From computers and peripherals to servers and storage, there is no better way to save on technology than purchasing from BalanceLogic Technology Outlet.
