WELCOME

We are pleased to introduce our new **BalanceLogic Insider!** After taking the suggestions of our subscribers, we've revamped our newsletter and introduced a great new layout!

BalanceLogic introduces Rachael Lusby to our Team! Rachael joins us as a Marketing Assistant, specializing in Graphics Design. Rachael is a graduate of Salisbury University, with a degree in Art/Graphic Design. She is highly skilled in the Adobe Creative Suite, including Photoshop, Illustrator, and Flash. Rachael will be responsible for all graphics design for both BalanceLogic and our clients. She will also be assisting in our company marketing efforts, including Social Media. Please help us in welcoming Rachael to the BalanceLogic Team!

On May 11th, BalanceLogic participated in the St. Mary's County Chamber of Commerce's Business Showcase. We met several great local businesses in St. Mary's County and received many promising leads. Sherry Santana of Chaney Enterprises was the lucky winner of our **Brand New Tablet PC!** Be sure to visit our FaceBook page to see pictures of our booth.

MONTHLY TIP

3 Tips to a Successful Logo

1. Keep it Simple: Having a logo that is complicated makes it difficult for reproduction and will fail to engage your audience. Your logo is the face of your business and "sells" your product. Simple is best!

2. Colors: Choosing the colors to your logo are very important because different colors illicit different responses from the audience. Two or three colors should be the maximum choice. The more colors you have, the more expensive productions costs. Some of the most recognizable companies use only one or two colors for their identity.

3. Longevity: There are many companies that have logos with long-lasting appeal, such as the General Electric logo or the Shell logo. It is a good idea to think several years ahead and picture where your company will be. Most companies update their logo after so many years, but the changes are small and they still keep the original feel of their logo.
